

Dangers lurk In Northern Streams

DAWSON CREEK, B.C., April 26.—The large bridge over the Cutbank river near Armas, B.C., and 12 miles west of here, collapsed and fell into the Cutbank river late Wednesday night, completely cutting off the heavily populated country west of there from all connections with this point. If the water remains high, obtaining supplies from here may become quite a problem.

ATHABASCA, April 26.—Pilot George Cooke and two passengers in the Athabasca river cable cage, had a marvelous escape from death in the swirling flood waters of the river here today, when the cage became filled with floating ice and sank beneath the surface. The occupants clung to the engine on the roof of the cage and remained there for half an hour while more than a 100 frantic townspeople sought by every means to effect a rescue.

Just when hope had almost been abandoned for the cage, clinging desperately to the cable line over the submerged cage, a miracle happened. A large piece of drift ice struck the cage, broke it in two, and the air and the heavy load within fell into the river. Lightened the cage rose above the surface and the occupants brought the pilot and passengers to the safety of the opposite bank as more than 100 men banks cheered lustily. Cooke and his two passengers, farmers from the district surrounding here, faced death for more than half an hour, midway across the rushing floodwaters.

Efforts to raise the cage by pulling on the cable failed to lift it to the surface although 100 persons pulled with might and main. A boat was used to pull the cage, but it would float to the marooned people it was carried past the cage.

Sparrow Blamed For Setting Fire

COUNCIL BLUFFS, Iowa, April 26.—It was a fire bird, not a fire bug that fired the home of Mrs. Mabel Gallagher of Council Bluffs, Fire Chief J. N. Cochran said the blaze was started by a sparrow carrying a lit cigarette into its nest in the attic.

Cool Mine Slump

MINTO, N.S., April 26.—With orders showing a decrease of about 45 per cent during the past month, a severe and unexpected slump in the price of coal has been suffered by coal mines in this province and in the United States. The decrease is due largely to the fact that railroads, consuming about 60 per cent of the mine output, have their orders by 75 per cent in order to clean up old stock.

THINGS OF IMPORTANCE

Three of the clearest indications of the session the public will meet with interest and approval.

The legislature decided to make no eleven-hour attempt at a redistribution and reduction of constituencies.

The members heard the Minister of relief say it is the purpose of the government to replace relief allowances and relief camp internment with work for which wages will be paid, in so far as that can be done.

And the house of commons dissented passed the resolution drawing the attention of the Dominion Government to the need of speeding up work on the Golden-Bowling highway, the Trans-Canada highway, and of building a road west from Jasper to connect with the B.C. highways and give a direct route to the Coast.

THE RIGHT TO VOTE

Redistribution should have been dealt with long ago. Since this was not done, to attempt it now would have prolonged the session indefinitely and ended more than likely in the adoption of the scheme advanced by Mr. Shields. Alberta members of parliament, however, the whole electoral system, extend the life of the legislature, and bring on an election only when the Government gets ready.

A manoeuvre of that kind would be interpreted, and rightly so, as a dodge to "ditch" the Social Credit movement, and suspend the franchise test it is being asked to have its Government and its supporters would not approve.

In the existing state of public temper any such abrogation of the rights of democracy would be more serious in consequence than anything a Social Credit legislature could do. Whichever anybody may do.

Chait, the people of Alberta are entitled to vote that way if they want to, and any attempt on the part of a legislature to interfere with that right would be holy and justly resisted.

It is, as Mr. Brownie contends, the administration of the last five years has resulted in a "wildfire" of discontent sweeping the province, it is not for the authors of the constitution to make this an excuse for suppressing the rights of the electors. It is to Premier Reid's credit that he kept clear of that crowning piece of folly.

THEORY WITHOUT WORKS

Spurred by a motion of Mr. Dechenes of St. Paul, Hon. Hugh Allen definitely stated that he is the intention of the Government to substitute a program of public works in place of direct relief and the New Government had been hinted by another Minister earlier in the session, rather casually.

The situation thus produced is peculiar. A policy is declared at the end of the session which should have been announced at the beginning and made the basis for the public works plan brought down. As matters stand it is only within narrow limits that the declared purpose can be carried into effect.

In practical terms it can come of the belated declaration unless men on relief and men now in the relief camps are employed in carrying out the road-building and other construction operations for which authority has been taken. But if that is done, farmers and others who have been counting on employment on these undertakings to invest their money for the summer can not also be accommodated.

The Government has no authority to launch into vast spending schemes for which it has not secured the assent of the legislature. How then is a public works program to be substituted for direct relief and relief camps, to the extent to which the undertakings already sanctioned are made use of for this purpose?

There will be general approval of this last moment declaration that work should be adopted in place of the debt. But since the work program for the year had been already made up, the cart was being put before the horse and there is no opportunity for substituting work for relief on any large scale. The theory is sound; but how can it now be applied?

THE MOUNTAIN ROADS

By unanimous vote the legislature concluded upon the Dominion Government to construct and complete this year a highway from Jasper to Blue River, and also the missing link in the Trans-Canada highway between Golden and Revelstoke.

It is a project of great importance and desirability of building these roads, and doing it with all possible speed, the members can be no more unanimous or earnest than the people of the province.

The Trans-Canada project was launched nearly five years ago. The Big Bend section was under construction before that. Work has continued ever since, and is under way at present, but apparently on the principle that time is no essential factor in the completion of the road.

The Passing Show

By J. S. COWPER

Spring seems just here again. While motorists are waiting the drying up of the roads, we can understand why primitive man worshipped the sun as the giver of life, and in the myth of the triumph of the sun in a celestial conflict with the powers of darkness.

The poets have felt the impulse of spring since ever poetry began. Now the scientist is studying the part of the general feeling of climatic changes in the world. The northern conifers whose resin secretions make loggers curse as their saws get gummed, tell of an Ice Age expanded camp.

Not only are these links in the mountain highway needed to provide employment, and due as a matter of fairness to the people who have been waiting for the completion of the undertakings will be profitable investments.

When these connections are made the Canada Rockies will offer scenic routes and circle tours absolutely without parallel in the motor tourists of the continent. There is no reasonable doubt that from the day they are opened the roadways money paid in circulation will fly dividends on the east, and within a few years the whole outlet will have been returned, mainly from United States pockets. As toll roads these highways would be money-makers from the start.

As means to use idle man-power, would it not be better for all concerned if the men who have been wrecking a state in Vancouver and the men who are protesting about the meals supplied in the Edmonton "soup" kitchen were building these highways?

Getting paid real wages for the work? Even the apostles of "sound" interest-bearing money where abouts on the coast, and within a few years the whole outlet will have been returned, mainly from United States pockets. As toll roads these highways would be money-makers from the start.

Getting paid real wages for the work? Even the apostles of "sound" interest-bearing money where abouts on the coast, and within a few years the whole outlet will have been returned, mainly from United States pockets. As toll roads these highways would be money-makers from the start.

As means to use idle man-power, would it not be better for all concerned if the men who have been wrecking a state in Vancouver and the men who are protesting about the meals supplied in the Edmonton "soup" kitchen were building these highways?

At an enthusiastic meeting in Toronto, Attorney-General Sifton of Manitoba was present on the Golden-Bowling highway, the Trans-Canada highway, and of building a road west from Jasper to connect with the B.C. highways and give a direct route to the Coast.

Reported in Toronto that Clarke Wallace has resigned from the Government, and that a favorable time for making the announcement is awaited.

A split among Government supporters over contracts along the Saskatchewan branch is reported. The American, lobbyist being the only Canadian.

It is expected the Government will submit the remedial legislation as a Government measure, and the Opposition will oppose it.

On This Date

A Day in Canadian History

On this date in 1871 an event took place at Fort Garry, which had a determining result upon the future of the Canadian West.

Prompted perhaps by the description of the Red River country by the Canadian press, the men who had returned from Wolsey's expedition in 1870, and the pioneers who had marked the Canadian of that period, a legacy from U.S. frontiers, or rather the instruments of an unseen hand, were quite as anxious to direct our destiny.

They were quite as anxious to direct our destiny. They were quite as anxious to direct our destiny. They were quite as anxious to direct our destiny.

THIS WAR-MAD WORLD: 43 Nations—Same Machine Guns

German gunners often were surprised during the world war when captured Allied machine guns appeared similar to their own German guns. More surprised were Allied gunners when they discovered that captured German guns were identical to their British-made weapons. These guns were Maxim machine guns. There was no reason for surprise over this apparent enigma, for almost every army of any size in the world uses the Maxim or a development or adaptation of its original patent. Forty-three armies, to be exact, are equipped to-day with these impartial demons of destruction. In other words, the armies of the world are ready to mow each other down with the same gun.

ORIENTAL—Japanese troops, themselves armed with Maxim machine guns, captured these Maxims from Chinese forces during Sino-Japanese hostilities.

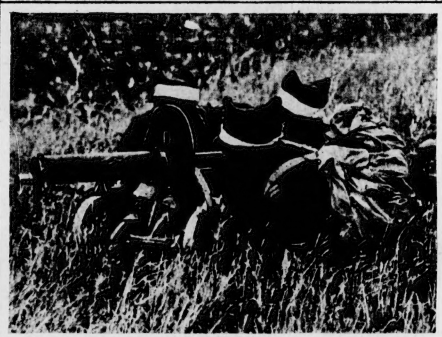

HOPELESS—A dead German soldier lying beside his Maxim gun. Allied soldiers were equipped with Maxims also.

ACME OF IMPARTIALITY—The Maxim developed from the mental genius of an American who found European battlefields more fertile. Soldiers of Poland's Marshal Pilsudski are using a Maxim here.

POM-POM—This quaint appellation for the Maxim machine gun was coined by African negroes who saw the gun used by the Boers against the British. Here we see the inventor, the late Sir Hiram Maxim, demonstrating his gun-pom to his grandson. The photo was secured exclusively for this page from the British museum.

BOUGHT FROM THE ENEMY—During the war Roumania fought against the Germans with Maxims manufactured at the German Weapons and Ammunition factory at Spandau, near Berlin. Our photo shows they still use the same guns.

SWASTIKAS—Germany was one of the first countries to purchase patents on Maxims. After closing that deal, Sir Hiram Maxim went to Vienna, where he met stiff competition from Basil Zaharoff, who was trying to sell the Nordenfeldt machine gun. Maxim and Nordenfeldt got together to their mutual advantage and formed a company, which later was bought by Vickers. That is why the Nordenfeldt-Maxim is built in Britain. Meantime Germany had been sold rights to manufacture the same gun.

WHEN IN ROME—Do as the Romans do, and use Maxims. For that matter, do as almost every other nation is doing. These soldiers are members of Mussolini's Grenadiers, their Maxims slung on their backs. Human memory is short, but history recalls that Italy also fought in the great war, where both combatants fought with Maxims. When the destructive weapons of both sides are identical, the winner must have the greater supply of weapons. More weapons mean more men to handle them. Humanity always pays!

SPORTS WHIPS WINTER TO THE FINAL SERIES

Wood Putts On the Seventh Green in Tourney

FANS by -BILL LEWIS-

Like hockey playoffs during the past season, upsets in the men's basketball finals at Victoria are evidently on the books as Windsor Assumption College whipped Victoria Blue Ribbons by a 44-21 score in the second game last night. The coast team won the first game by an impressive margin of 42-22 but the tables were turned last night, and, stated reports, the defeat to Victoria was not unexpected. Certainly it was a stunning triumph for the boys from the border city, but it gives evidence that a lot of basketball will be played before the best-of-five series is decided. . . . In Windsor's only chance of winning one of the two titles they aimed at in the hoop game. . . . The Edmonton "Grads" in three straight triumphs decided the fate of the lady representatives, but the home town fans back out are still hopeful that their pride of the floor came just put through.

Junior basketball officials went to the mat with their executive last night. . . . With Eddie Shore as president, Dave Little vice-president and Bill Harris secretary-treasurer, the league is nearly prepared to get into a season bidding even more progress than last year. . . . It has been a hard struggle for this trio of faithful workers, putting the league well on its feet, but they have weathered the trials and tribulations of the league's promotion and now are nearer to their mark for greater success.

There have made splendid progress for them in the 1933 cup-puzzles and if enthusiasm and hard work by the executive and club managers, and a little more support by the players themselves, will further benefit the league, then the juniors will experience the greatest progress this year.

The work by Bill Harris, Dave Little, and the colorful Shores in this promotion has been their finest, and with this evidence the league tripled their success last year.

Further progress in the junior league at Boyle street's sandlot is certain. . . . In one year—last season—the juniors, under their progress over that made in the initial campaign. . . . Next year will be able to retain the same players, they are under the same good and faithful guidance and last season, and teams will be strengthened owing to Edmonton Athletic Club dropping their entry for at least one year. . . .

College Hoopsters Register Stunning Triumph Of 44-21

Eastern Team Shows Best Form Against Coast Five in Winning Second Clash—Rogin Was Star

VICTORIA, April 26.—Assumption College of Windsor climbed onto an equal footing with Victoria Blue Ribbons in their Canadian men's senior amateur basketball championship series here last night when they handed the Victorians a stunning but not unexpected 44-21 defeat.

led by Willie "Moose" Rogin, husky guard and ace scorer of the Assumptionites who counted almost enough points singlehanded to win the game, the Windsor squad set a pace from the start that the Ribbons could not keep up with.

In a complete reversal of the scoring of the first game when the Ribbons led from the start to wind up on the long end of a 47-22 score, the Easterners snapped in the opening basket after seeing the score tied twice in the first four minutes, pulled into a lead that was never threatened.

RIBBONS BEATEN

In last quarter, the Ribbons eased through, but in the first quarter, they lost late in the game for their margin on Tuesday night, so the visitors did last night. But where the Ribbons were outscored in the third period in the opener the Windsor squad drove through to increase an already impressive lead.

Leading 11-5 at the end of the initial quarter Father McGee's crew topped in 14 more points in the next frame to end the half with a 24-8 margin.

In the third quarter the visitors really came out swinging, and won by a score of 44-21.

Going into the first quarter with a 33-10 lead, the Assumptionites proceeded to give Ribbons an exhibition of ball handling that had the British Columbians in a state of bewilderment for most of the period. For two minutes, therefore, the smart Assumptionites lashed the ball in the Ribbons' court vainly to get possession.

Ribbons managed to break through for three lone points but were outscored three to one as the visitors took time off in between passing bouts to count a total of nine points. Rogin tallied 18 points, 12 on baskets, and Merckley was next with 10 points.

The high scoring Doug Peden and Art Chapman, of the Ribbons, were held to seven and six points, respectively.

Having acquired the block of the south of Bendre park for use as a Community athletic centre, Roadside Community League is planning an aggressive campaign embracing several branches of community sport, and aimed at increasing the membership of the club.

Stated by Tom Clancy, father of "Rogin" Clancy of the Toronto Maple Leafs, as the greatest hockey player of all time, Allen, in position, the stocky, dark-haired Boucher last night received the coveted trophy as his permanent possession.

The trophy was presented at a banquet of Ottawa sportsmen in honor of four other active stars who had played a prominent part in bringing the world's hockey championship to the Montreal Maroons—Managers Rex Morgan, Allan Sturges, Stan Sturges and St. Mary Evans.

Edmonton A.C. Will Drop Out—Eddie Shore Is Elected President

Leading the Junior Baseball League will be hockey's greatest showman and player—Eddie Shore—and aiding him will be the same two officials who so greatly helped the league progress last year, Bill Harris and Dave Little. Again this executive will guide the league into a season which will have to even greater progress. Eddie Shore was elected President while Dave Little will take the office of vice-president and Bill Harris will assume his place as secretary-treasurer. This state of affairs was chosen last night at a semi-annual meeting held at the Williams Hotel.

Only one change was made in the league from last season and that being the circuit will have four teams instead of five at the Edmonton Athletic Club will drop out of competition this season.

TEAMS TO BENEFIT

Arrow Buses, Sawtooth, North Edmonton and Army and Navy Grits will be joined in the four-team league and all of these teams will benefit by taking players from the disbanded Edmonton Athletic Club team.

Quick to the indefinite playing arrangements and uncertain arrangements between leagues for playing dates at Boyle street diamond, the opening date was not set, but it is expected the league will get underway possibly in the second or third week in May.

This is the third year of organization for the league, starting out with none too great a success in the initial season, but in its second year it was revealed the league precisely tripped its success. This season it was pointed out will definitely prove the possibilities of further progress for the league, and the splendid trio of officials and club managers face the season with every confidence that it will be the best year yet in the history of junior baseball.

Early Saturday Capital Show

To every boy and girl in Edmonton as well as the many visitors to the city, the remarkable picture "Clive of India" arrangements have been made for a special show on Saturday morning commencing at 10:15. The doors will open at 10:00 and a free program will be a new novelty attraction all the way through the "Rainbow Canyon," and a Walt Disney Silly Symphony cartoon.

FOUR TEAMS FORM LADIES TEAM

The Civil Service Sward Club of Edmonton completed its thrilling annual competitions and trophies and place on the club teams were captured.

Later annual folk challenge cup contest resulted in a tie for first place between Molly Hewitt and Nellie Bell, each having won five out of six bouts, received 18 hits scored against themselves and scored 29 out of a possible 30 hits on their opponents. In the "fight off" Molly Hewitt was the winner. The competitors, most of whom are this year's recruits, showed a neat and good type of fencing.

WON THEM ALL

Men's annual folk challenge trophy and four men in the final pool and a final pool of the Civil Service Sward Club of Edmonton fought with great consistency. F. B. Wetterberg did not lose a single bout in this competition, his did not apply in the elimination.

The last competition being the folk challenge, the remainder of the contests were very equally matched, an exception of the scores shows that in the other cases the scores in points averaged less than one point between the top and bottom members in a pool.

Four Teams Form Junior Baseball Loop This Season

Edmonton A.C. Will Drop Out—Eddie Shore Is Elected President

Leading the Junior Baseball League will be hockey's greatest showman and player—Eddie Shore—and aiding him will be the same two officials who so greatly helped the league progress last year, Bill Harris and Dave Little. GILBEY'S

NOT THEORIES!

By ALEX. J. MORRISON

Two of the best golf fans I know are Mrs. Fred Stone and her lovely daughter, Carol.

When Mrs. Stone first took up the game the whole family, including Fred and the other daughters, Dorothy and Paula, engaged in a putting contest. Carol was the winner, kept score. Near the end of

the contest she cried, "Hurrah! my daughter's winning—the best of the highest score."

Judging from results there are many players who must think that the high interest of the low score is not. "Then tell me why they go on, year after year, turning in higher scores?"

The only answer I can give is this—most players find themselves into thinking that they are improving. An occasional good score may give you something to talk about, but it doesn't mean that your average is improving. It's lowering your average that counts.

BEST TEAMS OF ENGLISH LOOP CLASH

West Bromwich to Play Sheffield Wednesday For Coveted Cup

LONDON, April 26.—Sheffield Wednesday, one of England's classic teams, West Bromwich Albion and Sheffield Wednesday, are making final preparations for the world's greatest soccer event—the English cup final—to be played Saturday at Wembley stadium.

Everything is in readiness at the great sports bowl and 400 police and 450 officials of the English Football Association will be delegated to the job of marshalling a crowd which it is expected will number nearly 100,000.

If the weather is fine the King will witness the encounter from the Royal box and invitations have also been issued to Lord Derby, H. H. J. H. Thomas, secretary for the dominions, and term of the South African cricket team who will shortly open their English tour.

Representatives of the dominions and the colonies will also attend.

100 SPECIALS

All transportation facilities will be employed to bring the crowds to the game. Birmingham and short-haul will send the largest quotas, the railways will run 140 special trains which are expected to carry more than 50,000 from provincial cities and from Scotland.

The Sheffield team travelled to London today. With all members of Wednesday will field its strongest team composed of Brown, Nicks, Catlin, Sharp, Miller, Burrows, Hooper, Sturges, Paley, and others.

The West Bromwich eleven will probably not be selected until the morning of the match.

CONSIDER STARS

Edwards and Sankey are being considered for the left-back position.

Midland enthusiasts are hoping Glidden and Carter will be in commission to turn out. The veteran forwards have played together in 300 league and cup matches for the Wolves.

The probable team: Pearson, Shaw, Truisky, Murphy, W. Richardson, Edwards, Sankey, Glidden, Carter, W. G. Richardson, Stafford and Byers. In the event Glidden and Carter are unable to play their places will be taken by Gale and Jones.

The Wembley pitch is in perfect condition and resembles a main-moth billiard table.

Judging by the season's play the Wolves should be an even odd. Both teams have won 17 games but the Wolves have lost 14 against 11 for the Wolves today.

A free throw. Althoff added another basket before Ribbons clicked for their first score of the quarter. A long shot by Chuck Chapman on Andrews' pass.

Andrews scored on a free throw and Martin counted on a similar shot. Althoff's basket scored within a minute.

Series of intricate passes that had the Ribbons bewildered ended with Meretky's sinking the ball from close in. Ribbons swept toward the basket but Don Desjardis broke up the play. In the event, free-thrower repeated in the next minute on another Victoria rush, and the quarter ended with Assumption leading 35-18.

FOURTH QUARTER

Meretky snapped in Robin's rebound to open the final quarter. Althoff scored a free throw and Peden, after fouling one, counted a second later on a foul shot.

Nutkins scored two free throws. Seconds later Desjardis picked off Meretky's pass and flipped it in a basket and on the tipoff Meretky grabbed the ball for another basket.

Peden scored on Wall's rebound, then missed a free throw. Nicks made a foul shot good and Windsor had doubled the score on the Ribbons, 42-31.

Chuck Chapman missed a free shot. Harrison on a Windsor rush slipped in Desjardis' snappy pass under the Victoria basket with two minutes to go. It was the last score of the game. Taking possession of the ball the eagles touched floor wide palms to each other as the Ribbons sought vainly to break it up.

Peden finally intercepted a pass and raced for the Windsor end but his shot bounced harmlessly off the back boards.

Andrew missed a free throw before Windsor took possession again until the final whistle.

**Bright Stories
about Wine**

HOPE FROM THE BALKANS

● We said in our last piece that wine-making might be a larger industry than it is in Canada if early vine-enthusiasts had realized from the beginning that the grape native to North America, the *vitis labrusca*, had its own special merits, and had not persisted in their thousand and one experiments with *vitis vinifera*, which was famous but consumptive so far as this continent is concerned. It is worth noting, though it may be more interesting to the vintners than to the general public, that in Ontario we have been doing some further experiments with the vine of Europe which give promise of greater success than ever before. We have been testing a variety of *vinifera* which grows well in Bulgaria in the hope, if not indeed the expectation, that it will prove more suitable to our climate on the Niagara Peninsula than any of its numerous brethren which have had all merits but the important one of being able to live.

● Stranger things have happened than that the traditional European grape should prosper on our soil. There is knowledge reaped by experience now at the disposal of the horticultural experts which was not available a hundred years ago or even ten years ago. What has happened to the wheat in the West may well happen to the grape in the East. The hybridists are at work and are prepared to swear that sooner or later they will produce a grape which will have all the disease-resisting qualities of the native grape and the special qualities so much admired in the European grape. There is no reason why it shouldn't be. There is the man in Russia who is called the Russian Burbank. His name is L. V. Michurin. He has developed grapes to flourish in Siberia. And if in Siberia, why not in the Peace River district? And where grapes grow, sound wine can be made.

GOLFERS PREPARE FOR GOOD SEASON

Local Pro

HARRY SHAW, professional golfer of the Highlands golf course, who predicted a successful season for the club this year. Early golfers claim that the course was never better, and a banner year is looked forward to.

SOCCER DATES ARE ARRANGED FOR JUNIORS

Playing dates and arrangements for Edmonton Junior Football in which some 22 minor soccer teams will see action this season were arranged at the annual meeting of the organization in the Memorial Hall last night.

Success in the minor divisions has improved greatly during the last season and it appears that this year will surpass any in history. The entry list was increased by the teams over last year's long. Four teams will operate in the minor divisions, these being the South Side, Norwood Royals, Beverly and Cloverdale. The remaining three divisions, juvenile, middle and seniors will have six teams functioning in each.

Riverdale, Buchanan, Rogers, Bonnie Doon, Army and Navy Vets, Maple Leaf and King Edward will comprise the juvenile league.

The middle will have Riverdale, EAC, Maple Leafs, South Side, Buchanan, Rogers and Bonnie Doon while the seniors will be composed of Alberta Vets, Beverly, King Edward, South Side, Buchanan, Rogers and Bonnie Doon.

The league will open its season's play on May 1 when the seniors will commence their schedule. The middle and juveniles will follow within the next two days but the seniors will not open until May 7 or 8.

Frank Green was appointed supervisor of the leagues and director of both junior and middle divisions. Charles Field will handle the juveniles while Albert Orchin will handle the seniors.

In closing he expressed thanks to the members of the committee for their cooperation in conducting the league. The committee was composed of Kenneth Hardwick, Roy Woodard, Mark Woodard and Roy McDermid.

A humorous remark "The Stove-Pipe" was made by G. F. McNally, chairman of the Sunday school board of the Baptist Union of Western Canada. Presentation of the cup emblem of the management of the league was made by F. G. McColl, of Delisle, to Mrs. M. Holmes, captain of the First Baptist team. Rev. C. G. Stone, pastor of First Baptist church, made a few words of congratulation to the teams on behalf of the church. W. Howard of Bonnie Doon Baptist, spoke at length in support of the Sunday school league among the Baptist Sunday schools of the city. The chairman of the executive, Rev. W. S. Smalley, general secretary of the Baptist Union of Western Canada, gave the concluding address, in which he urged the boys to carry out the objects of the league, and to play in the game life as earnestly as in their sports.

Soccer Practice
The banner and midget soccer teams bearing South Side banners will hold a practice tonight starting at 7 o'clock at the South Side Athletic park. All are asked to attend these important practices.

Junior Softball
The Midget junior softball team will hold their first practice at Victoria High School grounds Friday and Saturday nights at 6:30 o'clock and all players are asked to turn up for the drill if they wish to secure a place on the team.

HOPING FOR THEIR BEST CAMPAIGNS

Fine Sunshine Rapidly Putting Greens Into Shape

All the racket in many articles may be traced to the fact that in countless hours the boys are digging out the old "g" bags. Winter's rust is being scrubbed away and the boys' heads are being shaved as never before. Green-keepers on all local links are anxiously tending fairways for, as each day's warming sun grows longer and longer, nature is leaving the grounds and the fairways, grass is peeping up—it won't be long now before the boys are digging divots.

Golfing season is now open to the Edmonton golfer. The majority of the popular ancient pastime. Already many golfers have wandered their way over the fairways of the various links, driving the little white ball to far-off corners of the distant horizon in their utmost skill and endeavour.

Only a few more bright and sunny days with a bit of breeze are required to put the greens in the best of condition, and should the weather be better, the boys will be in full blast throughout all the city links.

The Highlands course has been chosen by several of the early golfers who have followed their way over the fairways to be in better condition than

Mayfair Golfer

TOMMY MORRISON, Mayfair pro, who is busily preparing for a successful golfing season this year. The fairways of Mayfair are reported to be in fine condition by several of the club members who have stroked their way over the course and Tommy is leaving them in first class condition.

ever and a great following is expected here. Prince Rupert is also reported to be in first-class condition and, favourably, reports come from Mayfair, Edmonton and Country club, the members who have stroked their way over the course and Tommy is leaving them in first class condition.

Busy seasons are expected on all the fairways over the week-end, in golfers, if you are planning on a week-end of golf, get your reservations early.

SCOTTISH SOCCER CLOSSES SATURDAY

GLASGOW, April 26.—The long Scottish soccer season which started August 11 comes to a close on Saturday. Once again the famous Glasgow Rangers emerge as champions and holders of the Scottish cup while Third Lanark and Arbroath won honors in the second and third sections respectively while the top flight clubs. While in other sections clubs will be engaged in merely playing out the schedule tomorrow, five teams near the bottom of the Premier division will fight desperately to avoid demotion. Falkirk cannot escape relegation. Others in a vulnerable position are St. Mirren, Albion Rovers, Argy United, Dunfermline and Queen of the South.

Canadian Boxing Team Is Chosen

REGINA, April 26.—Verne Pettigrew, featherweight wrestler, champion of Saskatchewan, and Faby Brown, lightweight, have been named as members of an eight man team, to participate in Canadian championships at Edmonton May 20, 21 and 22.

MAPLE LEAF SPECIAL

Pure Dye Silk Prints

One look, and you'll know them for French imports by everything but the very low price. And they are! Not only that, our buyer chose them at one of the noted Lyons mills—selecting glorious patterns most suited to Spring and Summer fashions in Canada. Feel the exquisite unweighted texture—see the beautiful floral and "crayon" patterns, with their distinctive French colorings! There are dark, pastel, and white grounds for your pleasure—and best of all, the silk will outwear ordinary weaves. 37-inch.

Another Fashion Event the Home Decorator Won't Want to Miss

The Curtain Style Show!

In the Drapery Section, Second Floor, Annex, for One Week Commencing Saturday

Curtains, draperies, and the newest in window-hanging accessories have been assembled from Eastern style centres, for this display! Many tangible hints in Spring decorating are to be found in just a glimpse of these many cleverly planned window motifs.

Cottage sets as fresh and charming as a Spring bouquet... corollary arrangement of wire, bamboo or glass, in new designs. The newest of striped and plaid materials, in drapes that frame pane curtains of organza or voile or net. Leading decorators have contributed their 'pet' designs to this collection. Don't miss seeing it!

For BOYS!

Pullovers for School

Just great for the new school term! Boys are going to go for these styles in a big way—the classic "V" neckline, or the two-button polo collar type. A knit of wool and cotton yarns, they're in marl effects or popular plain shades of green, red, fawn or navy. Sizes 6 to 14 years. SPECIAL.

59c

Blouses and Shirts

A high-cut cotton broadcloth, with a firmness of weave that promises long service, even in the strenuous rough and tumble wear of school days. Fresh-looking patterns are in colorfast shades. The styles are collar attached, of course. BLOUSES, 6 to 14 years. SHIRTS, 12 to 14 size.

49c

Boys' Tweed Longs

A sturdy union tweed, boys... wool, with enough cotton for extra durability. The weave is a herringbone pattern, in the grey and brown shades boys like. For 8 to 18 years. SPECIAL.

How About Shorts?

Consider the younger lad. He'll want well cut shorts, of course. How about a pair of these—in cotton tweeds! They're nearly finished throughout, with pockets, belt loops and linings. Good-looking patterns, too, in grey and brown shades. Sizes for 6 to 12 years. SPECIAL.

39c

Two-Trouser Suits

A well-timed 'buy', for parents that are outfitting boys to go back to school. A generous money-saving here! Tweeds—good-looking, in grey and brown weaves, and durable, in a sturdy wool-and-cotton weave. The cost to double-breasted—and matched with two pairs of long pants. For 8 to 16 years. SPECIAL.
